

The Great American Agreement

wecanrepair.us

A Civic Compact for Trust, Fairness, and Shared Prosperity

America is not broken. It is over-extracted, under-trusted, and poorly governed. The tools of greatness still exist — we've just stopped agreeing on how to use them. This is not a revolution. It's a rebuild.

THE SIX PILLARS

01 Social Security Reform

Proportional Responsibility

Everyone pays 6.2% — but the income ceiling scales with income up to 10x. Adds ~\$190B/year, restores 75-year solvency without benefit cuts.

02 Healthcare Reform

Deliver Care Like Defense

Public-private Joint Ventures with fixed-cost contracts. Full coverage at \$4.02T/year. Profit allowed — when the public mission is met.

03 Service for Benefit

Debt Relief Through Contribution

4 years of civic service = full debt forgiveness. ~297,500 roles filled annually. 77% self-funding through operational savings.

04 Immigration by Contribution

Two-Path Legitimacy

Register within 30 days, maintain employment, choose citizenship or economic visa track. No shadow population. Just law, labor, legitimacy.

05 Term Limits & Trust

Trust Through Turnover

No more than 2 consecutive terms for Congress. 5-year lobbying cooling-off. Public service, not permanent incumbency.

06 Infrastructure & Climate

Building Forward Together

Public-private JVs for infrastructure and climate. Climate Trust Bonds. Service pathway priority for infrastructure jobs.

WHAT WE BELIEVE

Security for All

Not just the wealthy, not just the old.

Service as Belonging

A path to dignity, not just duty.

Contribution as Constant

Across income, role, and origin.

Accountable Governance

Trusted because it can be held responsible.

WHO THIS IS FOR

Candidates seeking a modern platform • Donors tired of ideological inflation • Voters who want policy they can defend • Builders who want to restore trust

You don't have to run to carry this. You don't need permission to adopt it.
You just have to agree: It's time to agree on something again.
